EXPERIENCE

ONLINE ADMINISTRATOR T/A SECURE — Centurion, Gauteng
Student Intern/Technical Sales — May 2026 – Present

- Configured, optimized, and integrated diverse software and hardware systems to ensure seamless interoperability and robust network communication. Participated in the design, deployment, and testing of tailored hardware and software solutions to meet evolving customer infrastructure needs. Conducted on-site technical evaluations, deployments, and hands-on hardware swap outs to guarantee optimal system performance and customer satisfaction.
- Diagnosed and resolved complex technical issues for new and existing clients, consistently meeting and exceeding Service Level Agreements (SLAs) for high-priority accounts. Prepared technical presentations and active participation briefings for stakeholder and client meetings, effectively translating technical concepts into business solutions.

DEPARTMENT OF CORRECTIONAL SERVICE — Pretoria, Gauteng
Student Intern/Help Desk/Junior developer — June 2025 – December 2025

- Assistance users with technical issues, inquiries, or service requests face-to-face and remote IT support. Mainly network related problems like troubleshooting network issues preventing users from completing their work - ethernet replacement, network configuration, computer configuration, system configurations. Involved in the updating and maintenance of hardware, software, network of the institution which has over 1400 employees. This includes enterprise systems like Microsoft365, Windows OS, and custom government systems like Persal and Logis.

- I served as a junior developer, responsible for developing a social worker system, designing and maintaining databases, and performing daily database backups utilizing technologies including C#, Dotnet, MYSQL, SSMS, Figma, and GitHub.
